

“ Mines are where  
you find them.”

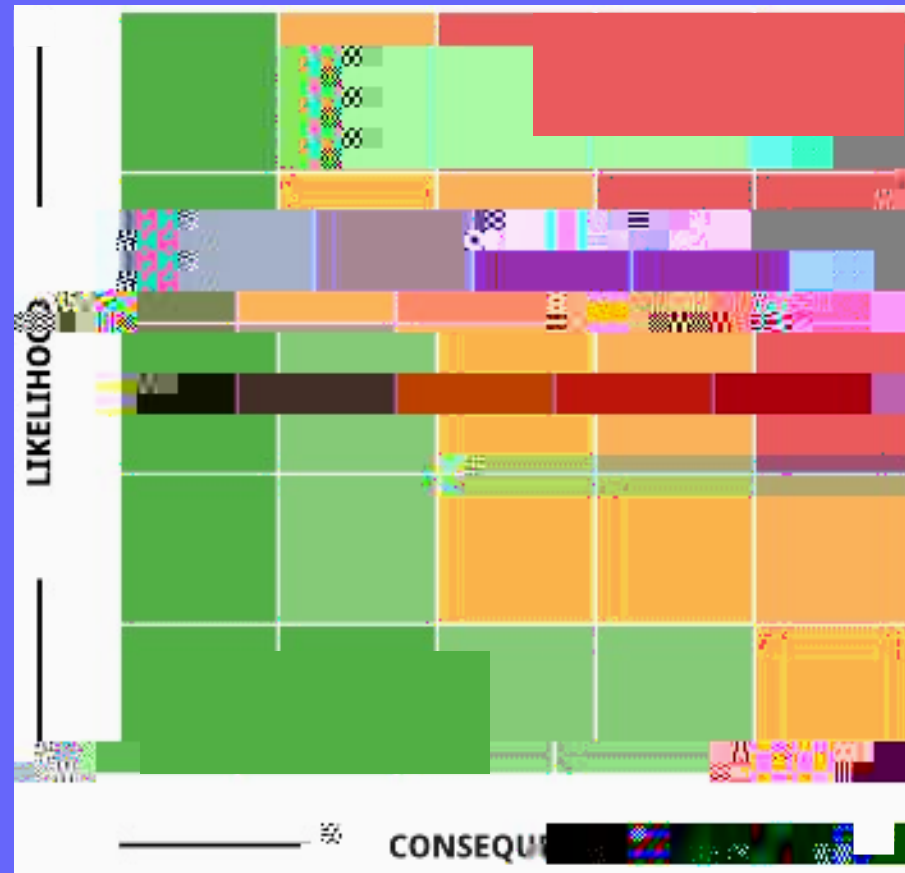

“ Mines don't just happen, they are made.”

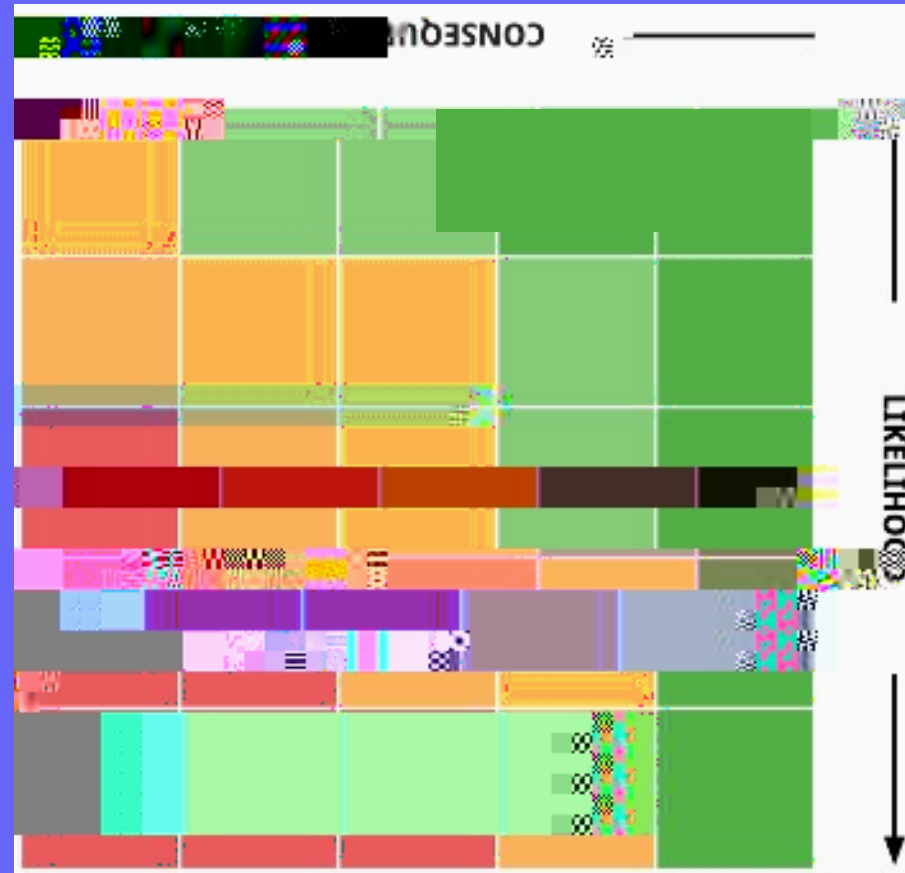

“ Mining is about  
people, people,  
people.”

Management

# Managing Impacts

# Managing Impacts

# Managing Impacts

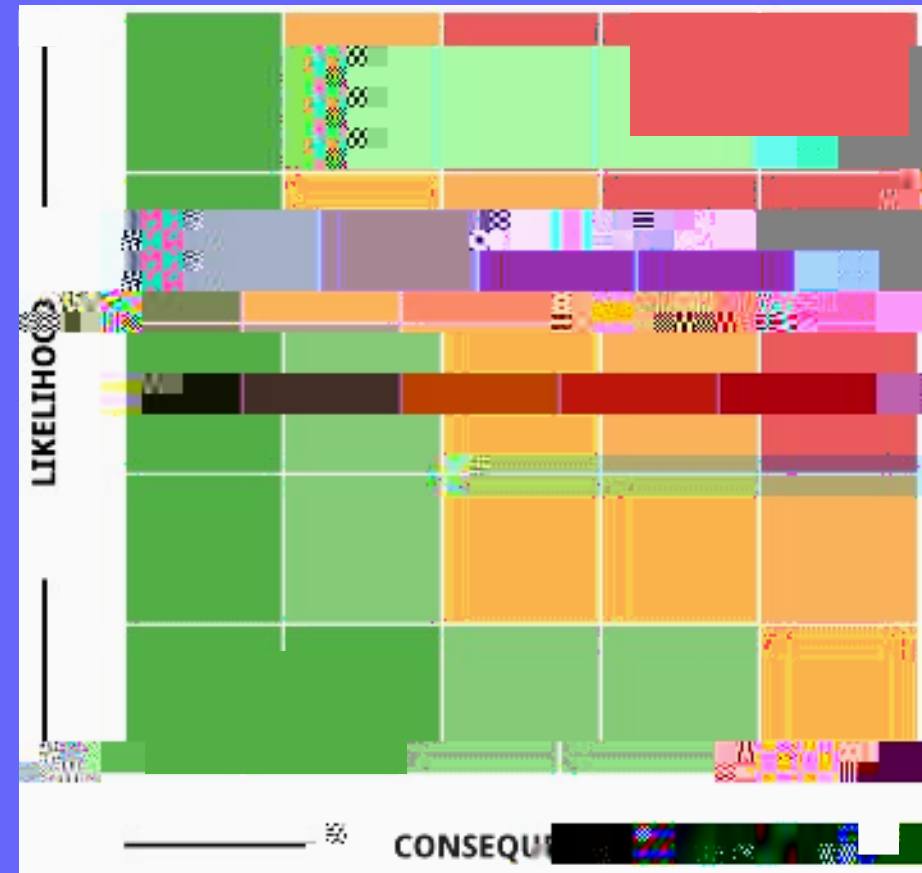

Scoping – defines things that are important, and areas potentially affected by a project

Baseline – study current conditions

Identify – potential impacts

Action – avoid, minimize, mitigate, enhance, adapt

Monitor – modify if needed; adaptive management plans.

What is the  
impact of not  
mining in Alaska?

Shared value.

Common purpose.

Motivate people.
