

*findings, these reviews shall include typical information considered in routine program reviews to the extent available. This motion is effective September 12, 2019.*

Each of the areas will be reviewed at a statewide level by an inter-university team comprised of faculty, administrators, staff, students, and community representatives. **Each review team will be convened by its chair, meet as needed, and provide a report to the President by 10/10/2019.** The reports will be posted for governance and public input and you will give a brief update to the Board of Regents subcommittee tentatively scheduled for 10/11/19. The President and Chancellors will review the reports, along with the governance and public input, and prepare options for consideration by the Board of Regents at its November 7 meeting.

This expedited program review will focus on broad structural issues associated with your unit. In your report address the following:

- 1. What degree programs would a single unit (college or school) serving the state include?*
- 2. Compared to our current structure of units or schools, what would be the administrative savings of moving from several units or schools to one?*
- 3. Assuming a peer average full-time student:faculty ratio, what would be the instructional cost reduction compared to our current state?*
- 4. What issues need to be resolved if the unit is assigned to one of our three separately accredited universities?*
- 5. What issues need to be resolved if the unit is part of a single accredited statewide university?*

I note that some of the question will not apply to

Thank you for your assistance in this process.
